Conan ZHANG

#notsogenz
Singapore

Summary

My name is Conan, and I am a passionate, innovative, self-driven, and reliable individual with a strong commitment to giving back to society through technology.

At Case Zero Development, I have found a platform that allows my friends and me to harness our technical expertise to advance technological progress and promote inclusiveness in Singapore.

Throughout my journey, I have taken the initiative to develop numerous technical projects for the greater good, allowing me to deepen my knowledge and skills in the fields I serve. My academic achievements and hands-on experience have allowed me to constantly push the boundaries of what is possible and strive for excellence.

While my experience may not be as extensive as others in my age group, I am proud to have earned recognition and awards that reflect my achievements and drive to constantly upskill and grow in the areas I am passionate about. I am deeply committed to positively impacting and inspiring others to do the same.

Experience

Case Zero Development
Chief Executive Officer and Founder
July 2022 - Present (11 months)
Singapore

NCS Group
SSOE2 Service Desktop Engineer - Zhonghua Secondary School
October 2020 - March 2021 (6 months)

[TP/2019_AISPSIG_Appointment_Letter.png](https://conan97zhang.info/about/download/Certificates/TP/2019_AISPSIG_Appointment_Letter.png)

As a Vice President, I have achieved and completed many successful projects with my Team Members.

AISPSIG is a Student Interest Group that strives to provide opportunity for students to various industry partners through the active hosting, facilitating and participating in Internal and External events. It is a unique SIG because we are part of the AiSP Student Chapter and the Singapore Computer Society Student Chapter.

We take charge of leading and facilitating the Youth Cyber Exploration Programme (YCEP), hosting students from Japan, conducting Cybersecurity Talks to TP students, and overseeing the TP Open House.

Besides leading in Projects, we have strongly encouraged Students to partake the Student Volunteer Recognition Programme (SVRP), which awards students for their efforts contributed to cybersecurity and non-academic areas.

I am very honoured to be the recipient of both SVRP Silver Award 2019 and SVRP Gold Award 2020. This award signifies the continuous effort done by the entire SIG.

Institute of Technical Education

Vice President of the Cybersecurity Club (Co-Curriculum Activity)

April 2017 - March 2018 (1 year)

Singapore

As a Vice President, I have achieved and completed many successful projects with my Team Members.

Cyber Security Club is an internal club that allows students to learn about Cybersecurity in the comfort of the School Environment.

We will create projects or prototypes which will allow the students to play and explore around with, hence showing them how vulnerable our cyberspace will be if we don't protect them stay relevant.

We participated in the GovWare 2017 and showcased our project where it is in the Project Section of my LinkedIn Page.

Din Tai Fung Singapore

Waiter

January 2014 - January 2018 (4 years 1 month)

Singapore

Education

Temasek Polytechnic
